- NODE.JS
- EXPRESS.JS
- REST APIS
- JWT AUTHENTICATION
- AXIOS
- BCRIPT

DATABASE:

- POSTGRESQL
- MYSQL
- SUPABASE

TOOLS:

- GIT
- GITHUB
- VERCEL
- POSTMAN
- VS CODE
- FIGMA

ABOUT ME

Full Stack Developer with professional experience designing, developing, and maintaining production web applications, client websites, dashboards, and automation solutions. Experienced in building scalable frontend and backend systems using React, Next.js, TypeScript, Node.js, Express.js, PostgreSQL, and REST APIs. Passionate about writing clean, maintainable code and delivering reliable software that solves real-world business problems.

I enjoy solving real-world problems through clean code, thoughtful UI/UX, and efficient backend architecture. I'm continuously improving my skills and exploring new technologies while contributing to production software used by businesses and institutions.

EXPERIENCE

JUNIOR FULL STACK DEVELOPER

INDIAN INSTITUTE OF TECHNOLOGY BOMBAY (IIT BOMBAY)

NOV 2024 – PRESENT

Contributing to the development and maintenance of production software solutions for institutional projects, including web portals, dashboards, automation tools, and data-driven applications. Working across frontend, backend, database, and deployment tasks while collaborating with multidisciplinary teams.

- Designed and maintained production web portals and dashboards supporting institutional projects.
- Implemented new features and enhanced existing applications to improve usability, maintainability, and performance.
- Created automation tools and web scraping solutions using Python to streamline internal workflows.
- Engineered full stack web applications using React, TypeScript, Node.js, PostgreSQL, MySQL, and D3.js.
- Integrated REST APIs and geospatial mapping services to support interactive data visualization.
- Evaluated emerging technologies and third-party services to improve existing systems and development workflows.
- Collaborated with researchers, developers, and stakeholders to deliver reliable and scalable software solutions.

CORE STRENGTHS

- FULL STACK WEB DEVELOPMENT
- REST API DEVELOPMENT
- RESPONSIVE UI DEVELOPMENT
- DATABASE DESIGN
- PERFORMANCE OPTIMIZATION
- TECHNICAL RESEARCH
- AUTOMATION & WEB SCRAPING
- PROBLEM SOLVING

JUNIOR FULL STACK DEVELOPER (FREELANCE)

STELLARIS LABS LLP

NOV 2025 – PRESENT

Working as a freelance Full Stack Developer, building and maintaining production websites and web applications for businesses across multiple industries. Collaborating directly with clients, designers, and stakeholders to deliver responsive, scalable, SEO-optimized, and production-ready digital solutions from development through deployment.

- Delivered and maintained 12+ production websites across industries including hospitality, healthcare, HVAC, fitness, insurance, and real estate.
- Designed responsive user interfaces using React, Next.js, TypeScript, Tailwind CSS, HeroUI, and Mantine UI.
- Developed reusable frontend components and integrated backend REST APIs to support scalable applications.
- Created automation tools and web scraping solutions to improve internal business workflows.
- Managed deployments on Vercel while ensuring reliable production releases and ongoing maintenance.
- Improved application performance, responsiveness, accessibility, and overall user experience across multiple client projects.
- Collaborated closely with designers and stakeholders to deliver production-ready digital solutions aligned with business requirements.
